Subject: Objection to proposed Portland Harbor Superfund Plan changes

Hello

I am writing to say that I object to the proposed changes to the Portland Harbor Superfund Plan.

Over 17 years of coalition work and compromise should not be discarded.

Our community uses this river for food, housing, commerce and recreation. I grew up around this river and want to see it cleaned up so it can be the thriving center of our city again.

Please don't throw that away.
